

## Patient and Guest Guidelines

To further protect the health of our patients, workforce, and the community, and to prevent the potential spread of Coronavirus Disease 2019 (COVID-19), *Texas Brain and Spine Institute* is modifying its visitor policy effective May 11, 2020 until further notice.

- All people entering the facility will be screened utilizing the CDC recommended guidelines. The brief screening process includes a symptom and temperature check as well as a questionnaire.
- Please remain at least 6 feet apart from other people. This includes while waiting to be screened and in the lobby areas.
- Please refrain from unnecessarily touching any person or hard-surface item that may be a frequent source of contact (i.e. door handles or railings).
- Only 2 bodies will be allowed in the elevator at any one time.
- Patients will be required to wear a face-covering in ALL AREAS once inside the building. We encourage patients to wear their own face-covering (i.e. masks, scarves, bandanas) as long as it properly covers your nose and mouth.
- Patients will be allowed one (1), adult guest. All other guests will be asked to wait outside.
- Permitted guests will be limited to one adult, over 18 years of age, per patient.
- Permitted guests must wear a self-provided face-covering in ALL AREAS once inside the building.
- No minors are permitted.
